### **INTERVIEW SUMMARY**

On July 25, 2007, Applicant's representatives, Eric S. Furman, Ph.D., and Ali Razai, conducted telephone interview with Examiner Louise Humphrey, Ph.D., and Primary Examiner Jeffrey Parkin, Ph.D. The parties discussed possible claim amendments in light of the rejections and art of record. The Examiner agreed to allow Claim 46 if it were amended to read: "An isolated glycoconjugate peptide comprising an HIV gp120 binding fragment of CD4 synthetically conjugated to gal  $\alpha$  (1,3) gal  $\beta$ ." Applicants' representatives agreed to amend Claim 46 and to cancel the method Claims 61-70, reserving the right to present the cancelled claims in the form of a divisional application, so as to place the instant application in condition for allowance.
